11th ANNIVERSARY *Gala*

Dear Potential Sponsor,

Mentoring Youth Through Technology (MYTT) is a non-profit organization educating, mentoring, and inspiring youth ages 6-18 through STEM. We strive to create a positive learning environment that introduces technology to young minds and empowers them to become innovators rather than consumers. As we look forward to yet another year of empowering youth with technology, we want to extend to you an opportunity to make a meaningful impact.

According to The Federal Bureau of Labor & Statistics, STEM occupations will increase by 10.8 percent by 2032. This growth rate is 8.5 times higher than non-STEM professions. However, children from at-risk and underserved communities often lack exposure to STEM fields, which can limit their opportunities for pursuing these lucrative careers.

A child's race, zip code, or socioeconomic status should NEVER determine their STEM fluency.

For over ten years, MYTT has been providing STEM programs that deliver a unique learning experience for students in various communities. Our commitment is to expand our reach and enhance our impact as we celebrate our 11th Anniversary Gala on June 7, 2024 at Chicago Gaelic Park.

Your sponsorship would enable us to:

- Supply our STEM Center with resources to help youth excel in STEM
- Adapt our programs to meet the evolving needs of our youth
- Extend our services to more communities

Your support will empower youth to pursue their passions and unlock their potential. Together, we can create a brighter future for the next generation.

To become a sponsor, please complete the form provided below and submit it via email or mail. Alternatively, you can visit our event page to purchase your sponsorship package directly. For any questions or assistance, please reach out to us at (708)762-9575 or email gala@myttil.com.

For sponsorship details and benefits, please see the attached document. If you have any questions or need assistance, contact us at (708)762-9575 or email gala@myttil.com.

Thank you for partnering with us to transform lives through technology.

Sincerely,

Randle Carter
